

THERMAL IMAGING CAMERAS

DETECT WITH EASE

Thermal Camera Systems

We are proud to offer the latest intelligent in Thermal Imaging Radiometric Detection and Thermal Measurement system. The 3210HD series is a state-of-the-art thermographic system boasting both optical and thermal imagers. When installed with the 3212-9000 calibration device, consistent temperature readings can be captured with a high degree of accuracy.

BE SAFE THE SMART WAY

01 Easy to Use

Using internal analytics, the 3210HD Series cameras produce a visible light image with thermal data overlaid on the image. Within a predefined alert area if the reading exceeds a specified temperature a virtual box will turn red and flash the capture value on the screen.

02 Versatile

Thermographic cameras can be used in schools, commercial, Retail, Financial, Nursing Homes, Large Venues, or Transportation environments.

03 Peace of Mind

Regardless of where this thermographic camera is used, it is sure to provide peace of mind for employees and customers alike.
